

# CARING PATHWAYS HOSPITAL PARTNERSHIP PROGRAM

Caring  
Pathways

*In-home compassionate pet care at life's end*

Since 2010, Caring Pathways has provided compassionate in-home end-of-life care for families and their companion animals along the Colorado Front Range. We are the first AAHA-accredited mobile end-of-life care provider and our doctors and veterinary technicians are all fear-free-certified. We are grateful for your trust and referrals over the years and have launched this complimentary partnership program to give back to our referring hospitals and broaden our support for families.

## Benefits for your Hospital:

- **Pet Owner Retention:** Studies show that 20-25% of pet owners change vets after pet loss (Compassion Understood, 2020).
- **Client and Staff Well-being:** Home end-of-life care reduces stress, burnout, and compassion fatigue.
- **Discounts & Education:** Opportunities for in-hospital or online end-of-life training for your team, led by one of our Caring Pathways veterinarians.
- **Complimentary and Discounted Caring Pathways Services for your Staff**
  - Complimentary in-home euthanasia services for your team's beloved furry family members.
  - Complimentary flame cremation from our sister company, Amare Pet Cremation Services.
  - Discounts off of in-home Hospice and Palliative Care appointments.

## Benefits for your Clients:

- **VIP Scheduling:** Access to an exclusive Caring Pathways Hospital Partner email address and client referral form so that our team reaches out to your clients to facilitate scheduling.
- **Complimentary Virtual Quality-of-Life Consultations:** As an initial connection, each of your clients is eligible to receive a complimentary, 30-minute Virtual QoL Consult with one of our veterinary professionals.

## Your Commitment

We understand that a big part of using the Caring Pathways services is awareness. All we ask is that you recommend Caring Pathways as an option to clients with pets facing a terminal diagnosis or nearing life's end. We provide support through in-home hospice, palliative care, quality-of-life assessments, and euthanasia services.

## What Clients are saying about Caring Pathways

"Caring Pathways is truly a gift. From the moment I made the appointment, to the day of care and thereafter, every detail was handled with such professionalism and compassion. Dr. Stacey Kim was incredibly thoughtful and a gentle guide for our family. Being able to say goodbye in the comfort of our home while I held my sweet baby kitty brought us a closure I didn't know was possible. Every detail was considered, and the first thing my partner and I said to each other after Dr. Stacey pulled away with our Toli was that she was our angel, and we trust her fully. She helped us say goodbye in a way that truly honored the love and the loss of my sweet girl, and for that, I am forever grateful.

~Testimonial from Caring Pathways Client, Krista
